NOTE: cycle times are approximate and may vary depending on instrument loads. *Model 3870EA requires a voltage between 220V and 235V for proper operation. When applicable a buck/boost transformer (0.5KVA) may be required.

Features

- Automatic shut off at the end of both the sterilization and dry cycles
- A long life electro polished chamber and door
- Double safety locking device prevents door from opening while chamber is pressurized
- Drain valve is located on the front, allowing for quick and easy draining of water reservoir
- Dual safety thermostat to protect against overheating
- Supplied with a 3 shelf stand (30”Wx36”Dx34”H)
- 1 year parts and labor warranty and 10 year chamber warranty

### Features

- Closed door active drying system to maintain sterility and ensure efficient drying of packs and pouches
- A long life electro polished chamber and door
- New brighter and easier to read panel
- Program parameters can be customized and stored
- Supplied with a 3 shelf stand (30”Wx36”Dx34”H)
- 2 year parts and labor warranty and 10 year chamber warranty

### Control Panel

1. Program Selection
2. Detailed Digital Display
3. Programmable Keys
4. System Indicators

### Optional Internal Printer

Documents: date, time, temperature, pressure.
