TIVA2 Washers

Thermal High Disinfector Line

Dental and medical practices need strict cleaning, disinfection, and sterilization of instruments before they can be used on patients. Thermal High Disinfection employs moist heat above 194°F for a minimum of 5 minutes to kill bacteria and viruses in the washing phase. The TIVA2 line provides:

- Thermal High Disinfection to achieve a complete decontamination cycle.
- Advanced control system and an easy to use interface

TIVA2 Thermal High Disinfector washers provide a flexible turnkey solution for washing, disinfesting and drying diverse medical instruments for a complete decontamination cycle.
TIVA2 / TIVA2-H Overview

TIVA2/TIVA2-H are fully-automatic thermal high disinfectors for all practices.

Features:
- Touch panel, color graphic display and real-time monitoring
- A total of 40 programs: Preset and programmable cycles
- Air drying prefilter + HEPA H14 filter
- Integrated water softener
- 2 dosing pumps with flowmeter for alkaline detergent and neutralizer (additional pump optional for TIVA2-H TD)
- USB/Printer for data documentation
- Provides complete & total evacuation of previous water (ETS)

Utility Requirements:

Water Connections
- Cold water connection for TIVA2 (default)
- Connection for demineralized water
- Integrated Water Softener with Salt Box
- R.O. water system is required
- Failure to incorporate an RO system with our TIVA unit will void your warranty

Electrical Connections
- 208+240V 1 phase 60Hz
